CET Graduation Day 2026: Seating & Hall Guide

To make CET Graduation Day 2026 smooth, organized, and stress-free for everyone attending, the Seating Arrangement & Hall Management Committee has created a simple web page: https://seatingcetgraduationday.github.io/2026/ It can be opened directly on any mobile phone, tablet, or computer without installing any app or logging in. QR Code given at the end

Main Purpose of the Web Page

1. Help Students Find Their Exact Seat Quickly
2. Show the Exact Walking Route to the Stage

Instant Search by Name, Register Number, or Seat Code

At the top of the page, graduands can type their Name, University Register Number, or Seat Number (for example, EE 92, CS 45, Arch 12, PTDC 5, or UG 1). The map immediately zooms to their exact seat, highlights it, and opens an information card below the map showing their assigned Block, Row, Column, Branch, Registration Status, and Certificate Station.

"Show My Path to Stage"

To avoid any confusion during certificate distribution, tapping any seat and pressing "Show my path to stage" plays a simple visual animation on the map

The webpage can be accessed using the QR Code give below
